Settlement Frame For Mounting CC

Description
Settlement frame made of galvanized steel sheet used for wall or ceiling mounting with clip mechanism.

Characteristics
Optional accessory used as a way of mounting.
The mounting of the grille with settlement frame is not visible.
It is mounted in the hole and allows quick detachment of the grille.
The grille is attached to the settlement frame through the clips mounted on the grille's inlet.

Technical design

A - interior size of the grille
B - size of the settlement frame

Mounting Clips

Description
